- Dates and times are subject to change.
- Cancellation of all courses must be made 48 hours before the course start date or the full price of the course will be charged. This is to accommodate students on our waiting lists.
- Review Course costs will not be pro-rated to reflect student attendance.

**Study Smarter.
Not Harder.**

What Makes Success 2000's Review Courses Unique?

- Success 2000 Study Centres' Review Courses are designed to help students prepare for their final exams in the most effective way possible. Our review courses take students through a **complete review of all materials covered between February 2019 and June 2019 of the Alberta curriculum in grade twelve core subjects as well as math 10C and math 20-1**. These comprehensive review courses are an ideal addition to any student's Diploma or final exam preparations.
- Our classes are spaced out over several weeks to optimize student learning. Shorter amounts of time for each review session enables students to review course content more effectively and allows time to practice concepts between review sessions. Diploma review and end of term review courses are scheduled throughout the months of May & June. Please see page two of this flyer for dates and times.
- We incorporate test taking skills into all our courses to help students to study smarter, not harder. Students will receive a Success 2000 Study Centres test taking booklet to use for all their Diploma and final exam preparations.
